

Desktop View for Mobile Devices

If you are unable to access Core-CT on your mobile device, Desktop View allows you to see options and menus as seen on computers and laptops.

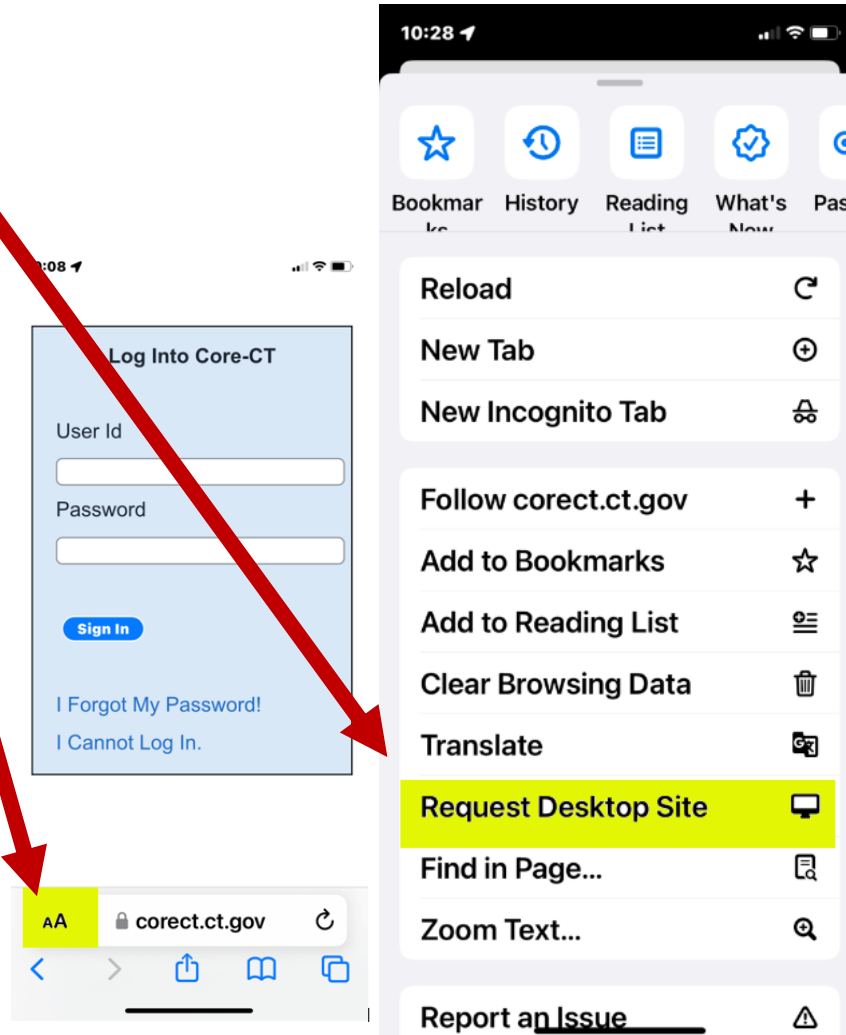

Selecting desktop site on portable iPhone and android devices

The purpose of this document is to assist users in selecting a desktop view on iPhone and android devices before signing into Core-CT.

iPhone Users: Safari Browser

Locate the web address bar (could be bottom or top) and select the AA.

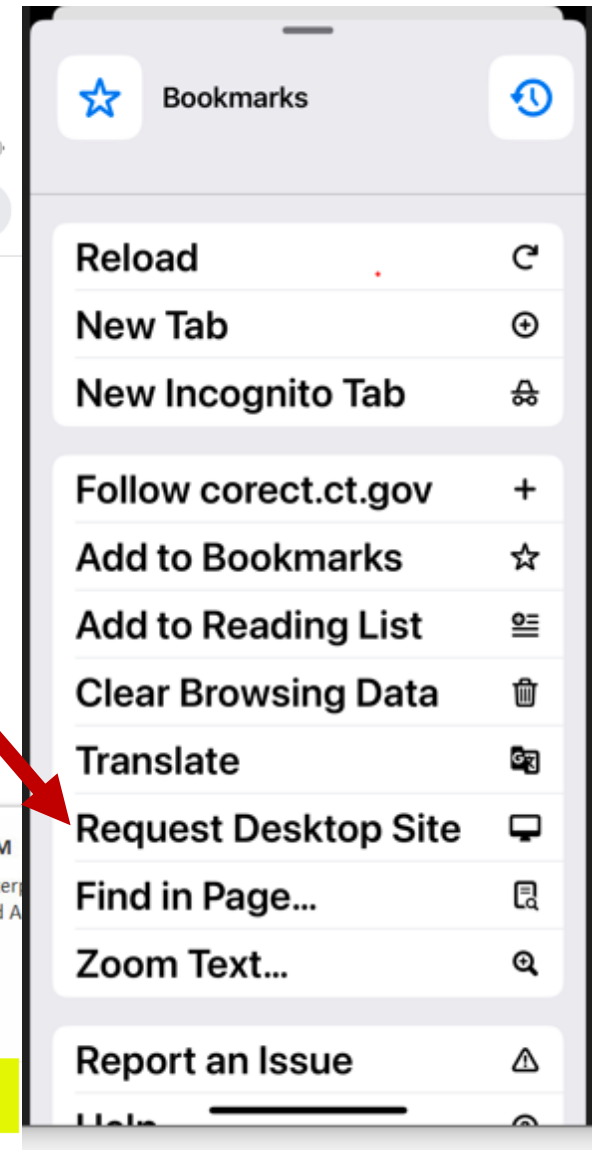

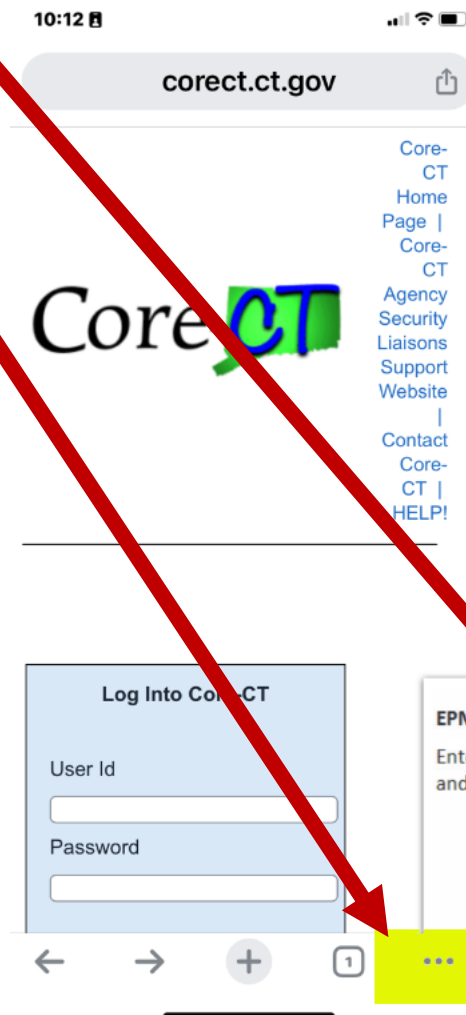

Select 'Request Desktop Site'
BEFORE you log into Core-CT

iPhone Users: Google Chrome
